

California Clinician Resources for Prenatal Genetic Screening

Clinician support for the new CA PNS program

The California prenatal screening program (CA PNS) is transitioning to cell-free DNA (cfDNA) as the primary screening technology for trisomies 21, 18, and 13, as well as fetal sex (optional). Clinicians will transition to digital ordering for noninvasive prenatal testing (NIPT).

As a global leader in cfDNA testing, Natera is proud to be an approved NIPT laboratory for CA PNS. We're partnering with CA clinicians to make the transition as smooth as possible for you and your patients, and want to connect you with resources to help you navigate the change.

California Dept. of Public Health (CDPH) webinars

To help clinicians prepare for the program transition, the CDPH is offering three CA PNS webinars:

Live Webinar Date	Topic
April 18, 2022	cfDNA Screening: A Clinical Overview
July 26, 2022	PNS Program Changes: What to Expect
August 24, 2022	PNS Program Changes: Educational/Training Materials

Register for the webinars and watch recordings at

https://www.cdph.ca.gov/Programs/CFH/DGDS/Pages/pns/PNS_Webinars.aspx

Natera webinar

Natera will be offering a comprehensive CA PNS on-demand webinar covering program changes and commonly asked questions, including:

- Overview of program changes
- How to place CA PNS orders
- How to order additional prenatal screening/continue ordering PanoramaTM
- Support resources for clinicians
- Support resources for patients
- Where to have blood drawn for CA PNS
- Tips to make your office's transition easy

Visit natera.com/CAPNS to learn more and sign up to receive the webinar when available.

Prepare for digital ordering with the CalGenetic portal

Starting September 19, 2022, you will have the option to begin using the updated CalGenetic portal to place CA PNS orders. Results will continue to be available in the portal.

CalGenetic portal registration is now open to all clinicians and genetic counselors. Visit <https://calgenetic.cdph.ca.gov> to create your user profile, register your office, and assign delegates.

To access CalGenetic portal training resources, visit https://www.cdph.ca.gov/Programs/CFH/DGDS/Pages/pns/PNS_Portal_Resources.aspx or view the training video playlist at https://www.youtube.com/playlist?list=PLZqpl41f-8c_TMH08qivPBpGumnHaxIB8.

Your partner for prenatal genetic screening

When you choose Natera for your CA PNS laboratory, you gain resources including:

- Optional supplemental NIPT and Horizon™ carrier screening from the same blood draw*
- Complimentary patient information sessions for supplemental NIPT and carrier screening* with Natera's board-certified genetic counselors
- Clinician access to Natera's genetic counselors for questions about tests and results
- Flexible phlebotomy services options
- Comprehensive patient educational materials
